

1. Identification

Product Identifier/Name

Product Name Foaming Hand Wash Super Hydrofill.

Other Means of Identification

Product Code(s) NC2023254HWB02.
Other Information Contains fragrance.

Recommended use of the chemical and restrictions on use

Recommended Use Use only as directed.
Restrictions on Use Not applicable

Details of the supplier of the safety data sheet

Company Identification Nohbo Inc. Suite 100, Robert J Conlan Blvd NE, Palm Bay, FL,
32905

Emergency Telephone Number

Emergency Telephone Consumer Relations: (321) 676-8181 (9:00 AM – 5:00 PM
EST).

In case of medical emergencies, please contact your local
poison control center.

2. Hazard Identification

Physical Hazards	This is a personal care product that is safe for topical application once added to water. This product is not sold for ingestion. Additional toxicological data is available upon request from supplier.
Health Hazards	<p>EYE: Contact may cause mild, transient irritation. Some redness or stinging may occur.</p> <p>SKIN: Not expected to be irritating, sensitizing, photoallergic, or phototoxic when used as intended. If irritation occurs following prolonged contact, it is expected to be mild and transient.</p> <p>INHALATION: Non – volatile, zero risk of inhalation. INGESTION: Product used as intended is not expected to cause gastrointestinal irritation. Accidental ingestion of undiluted or diluted product may cause mild gastrointestinal irritation with nausea, vomiting and diarrhea.</p>

Environmental Hazards

Not Applicable

3. Composition/information on ingredients

Composition

The product(s) does not contain hazardous ingredients as defined by OSHA, 29 CFR 1910.1200 and/or WHMIS under the HPA.

Substance

Chemical name	CAS No
Coceth-7	61791-13-7
Palm Kernel/Coco Glucoside	141464-42-8
Amorphophallus Konjac Root Extract	37220-17-0
1,3 Propanediol	504-63-2
Glycerine	56-81-5
Hydrolyzed Corn Starch	8029-43-4
Sodium Lauryl Sulfate	151-21-3
Cocamidopropyl Betaine	61789-40-0
Glyceryl Oleate	25496-72-4
Caprylyl/Capryl Glucoside	68515-73-1
Potassium Sorbate	24634-61-5
Sodium Levulinate	19856-23-6
Methylpropanediol	2163-42-0
Capryloyl/Caproyl Anhydro Methyl Glucamide	2290526-77-9
Caprylyl Glycol	1117-86-8
PPG-1-PEG-9 Lauryl Glycol Ether	154248-98-3
PEG-40 Hydrogenated Castor Oil	61788-85-0
Shea Butter Glycerides	194043-92-0
Capryloyl/Caproyl Methyl Glucamide	1591782-62-5
Sodium Benzoate	532-32-1
Phenylpropanol	1335-12-2
Ethylhexylglycerin	70445-33-9
Aloe Barbadosis Leaf Juice	85507-69-3

4. First-aid measures

Inhalation	If respiratory irritation occurs, remove individual to fresh air. Contact physician if symptoms persist or worsen.
Skin contact	Discontinue use of product and apply cold compresses to Affected areas. If discomfort persists, consult a dermatologist to identify possible skin allergies.
Eye contact	Rinse affected area for 15 – 20 minutes with cold water. If discomfort or irritation persists, consult a physician.
Ingestion first aid	In case of accidental ingestion dilute with fluids (water or milk) and treat symptomatically. Do not induce vomiting.

5. Fire-fighting measures

Flash point	Not Applicable
Specific Hazards	Not Applicable
Extinguishing media	Water spray. Dry powder. Foam. Carbon Dioxide.
Firefighting	Contact Emergency Personnel. Do not attempt to act without suitable protective equipment. Use self-contained breathing apparatus and full protective gear. Hazardous by-products may be released from decomposition and thermal degradation.

6. Accidental release measures

Methods and materials for containment and cleaning up

Remove viscous liquid as much as possible, proceed to dilute residual product with water and scrub until foam production is unnoticeable.

Personal precautions, protective equipment, and emergency procedures

Standard personal protective equipment must be worn while handling bulk product spillage. Avoid contact with eyes.

7. Handling and storage

Precautions for safe handling

No unusual handling requirements.

Conditions for safe storage, including any incompatibilities

Store them in their original packaging specifications in a cool, dry place away from direct sunlight, heat sources, water and humidity. Keep them out of reach of children and pets to prevent accidental ingestion or exposure.

8. Exposure controls/personal protection

Occupational exposure limits

Concentrate to be handled with chemically resistant gloves.

Individual protection measures

Skin protection - hand

Wear chemically resistant, FDA compliant protective gloves.

Eye/face protection

Wear closed safety glasses. Liquid splashes may occur.

Skin protection - other

Wear suitable protective clothing.

Respiratory protection

In case of insufficient ventilation, wear suitable mask.

9. Physical and chemical properties

Appearance

Physical state

Liquid

Color

Brown, see-through liquid.

Odor properties

Odor

Characteristic Coconut Lime Odor.

pH properties

5-7

Thermal properties

Initial boiling point and boiling range > 212 F (100 C)

Flash point Not Applicable

Vapor and solution properties

Vapor density Not applicable

Solubility (water) Soluble

% VOC Complies with Federal and State regulations for VOC content.

Viscosity Not Applicable

10. Stability and reactivity

Reactivity This product is non-reactive under normal conditions of use, storage, and transport.

Chemical stability Stable under normal conditions.

Hazardous reactions No dangerous reactions known under normal
Conditions to avoid No information available.

11. Toxicological information

Toxicological Data This is a personal care product that is safe for intended topical use. Product is not sold for ingestion. Additional toxicological data is available upon request from supplier.

Chronic effects Finished product not expected to have chronic health effects.

Specific target organ toxicity - repeated exposure No adverse health effects on target organs expected for finished product.

Carcinogenicity Finished product is not expected to be carcinogenic.

12. Ecological information

Ecotoxicity Not Applicable

Bioaccumulative potential Unlikely
Other adverse effects Not Applicable

Degradability Readily Biodegradable

13. Disposal considerations

Disposal instructions Disposal should be in accordance with Federal, State/Provincial and local regulations. The following instructions are for consumer usage only. Discharge into drain for water treatment after adequate dilution of viscous liquid.

Local disposal regulations	Products covered by this MSDS, in their original form, when disposed as waste, are hazardous waste U205, according to Federal RCRA regulations (40 CFR 261). Disposal should be in accordance with local, state, and federal regulations.
Hazardous waste code	California Waste Code 331
Contaminated packaging	Not Applicable

14. Transport information

Finished packaged product transported by ground (DOT)

Transport hazard class(es)	Nonhazardous
----------------------------	--------------

Finished packaged product transported by air (IATA)

Transport hazard class(es)	Nonhazardous
----------------------------	--------------

Finished packaged product transported by vessel (IMDG)

Transport hazard class(es)	Nonhazardous
----------------------------	--------------

15. Regulatory information

General info	Regulated as a Cosmetic and/or Drug under FDA (US), HPB (Canada), Cosmetic Directive (EU), MHW (Japan) and MOH (China). While the finished product(s) is not considered hazardous as defined in 29 CFR 1910.1200 (d) this MSDS contains valuable information critical to the safe handling and proper use of the product.
Other regulatory	Perfumes contained within the products covered by this MSDS comply with the appropriate IFRA guidelines.
California Prop. 65	Does not contain substances listed on Prop. 65.

16. Other information, including date of preparation or last revision

Issue date	2023-12-08
Revision date
