

PURITI LAUNDRY CARE

STARCH SOLUTION

GENTLE HOLD STARCH SOLUTION

- **Gentle hold formula**
- **A solution of starch designed for use in all commercial laundries**

USES

A specialist formulation of starch, stabilisers and preservatives designed to give outstanding performance when added to the final rinse cycle. Suitable for use automatically or by hand. Produces a gentle hold on table clothes, table linen, napkins, chef's whites and other specialist applications.

DIRECTIONS

Either apply manually or through a suitable dispenser into the final rinse cycle. See the chart for recommended concentration levels and adjust the concentration according to your requirement for hold. Iron when damp to develop the hold in the fabric.

USE BY HAND

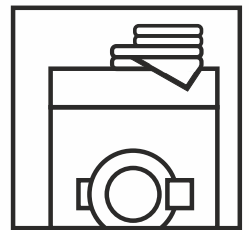

Immerse fabric in a 1% solution of Starch Solution diluted with cold water. Ensure all fabric is wet. Wring out the fabric and use a hot iron to activate the starch while fabric is still damp.

N.B. Do not over apply. Always assess the type of fabric when considering the concentration of starch solution required.

DILUTIONS

| MACHINE SIZE/SIZE OF LOAD | SYNTHETICS | COTTONS |
|---------------------------|------------|---------|
| Less than 5Kg | 25ml | 75ml |
| 5 - 10Kg | 50ml | 150ml |
| 10 - 18Kg | 90ml | 270ml |
| 18 - 20Kg | 120ml | 360ml |
