

# Science made simple

V-Air® SOLID multi-phasing passive air freshener  
with sub-micron fragrance technology

VECTAIR  
**V-AIR**®  
SOLID

# Multi-phasing, sub-micron technology. VOC Exempt.

## VOC exempt

V-Air® SOLID is VOC exempt and waste-free.

It is completely free of any solvents, propellants, HFCs and harmful volatile organic compounds (VOCs) – the truly safe solution for your aircare needs. The refill is 100% organic and biodegradable and the dispenser is 100% recyclable.

## No batteries required

V-Air® SOLID contains no batteries.

It is designed so that it does not need any external power source such as oxygen or hydrogen fuel cells, and it doesn't rely on gravity – all it needs to work is natural airflow.

## Sub-micron technology

V-Air® SOLID utilizes pioneering multi-phasing sub-micron technology.

The V-Air® SOLID particles enable superior fragrance delivery, yet are sized typically below 1.0 micron. This means they are much smaller and lighter than the particles in other fragrance systems, remaining airborne for many hours. This makes V-Air® SOLID highly effective whilst being safe for public areas and continuous exposure.

## How does it work?

V-Air® SOLID incorporating sub-micron technology is made up of a unique ceramic capsule and a fragrance core.

This, combined with a passive dispenser, delivers consistent fragrance intensity.

The ceramic capsule is infused with high quality perfumes, then complemented by an integrated internal fragrance core. These combine and diffuse powerful key fragrance notes that are subtly different. The diffusion rate of fragrance moving through the ceramic capsule is much different to the fragrance evaporating from the surface of the fragrance core. This means that the start fragrance transforms into something very different over time.

These blends of complementary but differing fragrance notes specifically eliminate fragrance fatigue in a revolutionary way, all from one single passive aircare system.

...completely free of any solvents, propellants, HFCs and harmful volatile organic compounds (VOCs) –  
**the truly safe solution for your aircare needs.**

## V-Air<sup>®</sup> SOLID multi-phasing passive air freshener

### Just three parts

Technology doesn't have to be technical. In fact, science can make things simple.

The technology behind V-Air<sup>®</sup> SOLID is packed into one powerful refill component, so we've done the hard work for you – no fuss, just fragrance. A fully recyclable retaining clip attaches the refill to the dispenser. That makes up just three parts.

### No leaks

V-Air<sup>®</sup> SOLID contains no liquids so won't spill, even if it is knocked over.

This ensures safety in use and in transportation. V-Air<sup>®</sup> SOLID is unaffected by climatic conditions, the most common cause of passive cartridges failing. It will not dry out during its lifetime like traditional gel systems.

V-Air<sup>®</sup> SOLID. Multi-phasing, sub-micron fragrance technology packed into just 1 single component. The science in V-Air<sup>®</sup> SOLID speaks for itself.

### Available in 5 fresh fragrances

Multiple fragrances from one air freshener, the science in V-Air<sup>®</sup> SOLID speaks for itself.

## Specifications:

- > Fragrance life of up to 60 days (compared to typically 30 days for an aerosol refill)
- > Coverage of up to 6,000ft<sup>3</sup> / 170m<sup>3</sup>
- > Universal fit - designed to fit into most similar existing passive dispensers
- > Approx. refill weight: 220g / 0.48lb (per refill)
- > Pack size: 6 x refills
- > 5 fresh fragrances available, see the back page for more details.

Product codes:

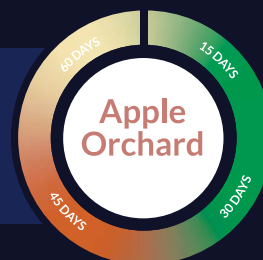

- V-SOLID MINT (Cool Mint)
- V-SOLID MELON (Cucumber Melon)
- V-SOLID APPLE (Apple Orchard)
- V-SOLID OCEAN (Ocean Spray)
- V-SOLID CITRUS (Citrus Mango)

A heavenly mix of sweet and subtle. A fresh crush of cucumber leads into a calming melon, which drifts into an uplifting peach.

Your senses embark on an indulgent journey of taut apple, leading into spicy rich aromas of clove, cinnamon and nutmeg, with a touch of velvety vanilla.

This fruity cocktail starts with a burst of fresh citrus peel and juicy berries, opening the way to a lively lime with vanilla ice cream, and departing with a punch of peach and mango musk.

Beginning with crisp cedar and pine, the fragrance evolves into a cooling herbal aroma, transforming into a sparkling blend of energising wild mint and eucalyptus, with a touch of lemon spearmint.

Opening with a mixture of clove, jasmine and lemon peel, this floral blend blossoms into a wave of soapy, cool marine musk.
