

ERP180

ReFlo Vacuum

Made from up to 75% of the highest quality, recycled plastic; equipped with our highest efficiency motor yet; and delivering the same high-performance, high-quality and long-lasting Numatic results as always... the ERP180 is designed, engineered and built for sustainable productivity.

ERP180

Numatic

Environmentally Sustainable

Engineered from up to 75% of the highest quality, recycled plastic using our innovative, environmentally sustainable ReFlo Technology.

ReFlo Technology uses high-quality recycled, post-industrial plastics from the automotive industry, which are diverted from landfill or incineration.

Highest Efficiency Motor

Equipped with our highest efficiency motor yet, the ERP180 delivers a 30% reduction in energy consumption; providing the same professional, high-performance cleaning results you expect from a Numatic machine while saving you money too.

Built to Last

Providing the same tough, heavy-duty Numatic construction as always, ReFlo Technology ensures the ERP180 is both sustainably engineered and built to last.

- Environmentally Sustainable – Engineered from up to 75% of the highest quality recycled plastic.
- Built to Last – Tough, heavy-duty construction.
- Don't forget your Hi-vis! - High visibility cable for safety on the workplace
- Handy Cable Replacement - NuCable system for quick and easy cable replacement.
- Easy, Clean and Safe Emptying - High-efficiency, triple-layer HepaFlo filter bags.
- Compact and Convenient – On-board tool and cable storage, plus handy caddy design.
- A Tool for Every Job - Professional accessory kit with aluminium tube set.

Features

Convenient carry handle, on-board tool and cable storage, and easy cable replacement system (...just in case!).
